LOVE'S YOUNG DREAM

Meets With a Rather Sudden Eclipse in the Shape of an Arrest.

A NEW LOCK ON THE MUSKINGUM.

Warrants Issued for Suspected Masked Midnight Burglars.

ALL THE NEWS FROM NEAR-BY TOWNS

ISPECIAL TELEGRAM TO THE DISPATCHA FRANKLIN, March 14 .- Elmer Wilson, of Meadville, was arrested in this city today by Policeman Hasson, on receipt of a telegram from that city. The charge against Wilson is obtaining money on false pretense. Wilson fell in love with pretty Nellie Robison, of Harmonsburg, Crawford county, but owing to the scarcity of money on his part, the course of their true ove didn't run very smooth.

Finally, so it is claimed, Wilson hit upon the happy idea of going to a friend of his father's, and induced him to indorse a note for \$50, telling him that his (Wilson's) father wanted to raise some money to hay a mortgage. Wilson secured the money on the note and induced Miss Robison to clope with him.

They were married at Meadville, and had reached Franklin on their way to Clearfield county when they were arrested. Wilson was county when they were arrested. Wilson was taken back to Meadville, but his bride is still

at a botel here, heartbroken over the sudden and disgraceful end of their honeymoon.

RIVER IMPROVEMENTS. The Muskingum is to Have a New Lock and Other Desirabilities.

ZANESVILLE March 14.-The plans and on the Muskingum river at Taylorsville, about ten miles below this city, have been returned from the War Department approved, and work will be begun on it as soon as the season opens. The lock gate tenders along the river have experienced considerable difficulty in working the gates on account of the mud which accumulates and clogs them up. A novel plan has been ance and cogs them up. A novel pian has occu conceived by Lieutenant L. H. Beach and Colonel Merrill, of Cincinnati, to obviate this difficulty. The water, instead of being admitted to the lock chamber through the valves in the gates as usual, enters the canals on the outer sides of the locks, passes down through cylindrical valves to a channel which passes under the mitre sill on which the gates rest and rises in the lock chan

In emptying the chamber the water passes through the holes cut in the walls of the locks just in front of the lower gates. The force of the current will be such as to wash away any sediment that may be deposited in front of the gates.
The lock will be 180 feet long and 40 wide, and will lock a boat through 160 feet in length. It s estimated that it will cost \$90,000. The work is to be done by contract, which has not been let yet. The estimates for the year for work on the Muskingum, amount to \$180,000 in addi-

tion to the above. A REWARD OFFERED

And Warrants Sworn Out for Four of the Suspected Robbers.

Uniontown, March 14,-John S. Weltner was discharged from custody this evening, after a hearing on a charge of being concerned in the McClellandtown robberies. He was at once rearrested on a similar charge by other victims, and warrants have been issued for John Ram-sey, Jack Sullivan, Charles Lewis and Henry Sullivan, who are suspected of being the other four members of the gang. So far the consta-ble has not succeeded in raising a posse of strength enough to undertake their arrest, all four being desperate men, three having served long terms in the penitentiary, and the arrest ing party will take their lives in their hands when they attempt an arrest. The County Com missioners have offered a reward of \$200 for the

John Ramsey, who is reported to have been shot through the body by young Grove on the night of the McClellandtown raid, was said to be at Brownfield, a town near here. A posse of officers went after him this evening, but learned that he had been removed early this morning and no clue could be found to his whereabouts. The want of a systematic search, and the absence of a stimulating reward has lost much time, and it is feared the outlaws have gotten beyond reach. The excitement throughout the country is intense and unabatthroughout the country is intense and unabat-ing, and it was due to the great demand from the rural sections for something to be done that the Commissioners offered the above re-

A NEW COKE COMPANY.

Philadelphia Capitalists Locking Up Field in West Virginia.

Mongantown, March 14.—A number of Philadelphia capitalists are prospecting through the southern part of this county with the view of buying a large area of coal lands and engaging in the manufacture of coke upon an extensive scale. Dr. Jackson, of Philadelphia, is now going through the coal and in the interests of his associates, and has Philadelphia, is now going through the coal field in the interests of his associates, and has sent a considerable number of samples of coal East for analysis. The company will probably buy 10,000 acres of land in the vicinity of Loweville, and will in that event erect a bridge across the Monongahela river for convenience of shipping. Several hundred coke ovens will be erected the coming summer should the purchases of land be made.

A FURNACE FAILS

TRIED IT IN TWO WAYS.

A Uniontown Prisoner Who Was Determined to Commit Suicide.

UNIONTOWN, March 14.-While suffering from delirium tremens last night William T. Moore attempted suicide in the jail. He was discovered by a prisoner trying to cut his throat with a penknife. The prisoner went for assistance, and when they returned Moore was susnce, and when they returned assort on by a sended from the grating of the cell door by a sandkerchief, which he had placed around his the door. handkerchief, which he had placed around ma neck and then tied to the door. He was cut down and is still living, but his condition is critical. He was placed in jail for assaulting his wife while intoxicated.

He Has Relatives in Pittsburg.

LIMA, March 14.—The body of John Crishem, who lost his life at the explosion of the Stand-ard refinery, was found this morning in the retervoir of refuse oil, where he had been thrown by the force of the explosion. The body presented a horrible sight, eyes being burned out, hair all off his head and the arms and face burned to a crisp. Crishem has relatives in New York and Pittsburg, but his parents are in the old country. He was 23 years of age and unmarried.

Killed by the Cars.

WOOSTER, O., March 14.-The horribly mangled remains of James Devere, aged 63 years, and a fairly well-to-do resident of Maysville, this county, were found at a railroad bridge here early this morning. Both legs were torn off, and the body frightfully cut up. It is supposed that while intoxicated he at-tempted to walk across the bridge and was struck by a freight train and killed.

Two Fires in Three Days.

BELLEFONTE, March 14,-A house belonging o Dorsey Green, near this place, was burned to the ground early this morning. The house was a large stone building and was one of the oldest in this vicinity. The ori_in of the fire is a mystery. This is the second fire in three days, some outbuildings to the value of \$500 having burned for him. The loss on the house is over \$8,000 to leasured.

A RAILROAD IN TROUBLE.

Suit Brought Against the Lake Erie, Alliance and Southern CLEVELAND, March 14.—James L. Dawes, of Inglewood, N. J., has brought a suit in the United States Circuit Court against the Alliance and Lake Eric Railroad Company and others to secure the foreclesure of a mortgage on the road. Mr. Dawes claims that the Alli-ance and Lake Erie Railroad on October 1, 1880, executed a mortgage on its line to Hon. Henry B. Payne, as trustee for the purpose of securing the payment of 150 bonds of \$1,000

each.

Senator Payne resigned as trustee on December 29, 1888, and Mr. Dawes succeeded him. It is claimed that the interest on the bonds has not been paid, and the Court is asked to foreclose the mortgages and place the property in the hands of a receiver. REVIVES MEXICAN WAR MEMORIES

would attempt to awake him, but it would be of no avail, as he would generally sleep three or four hours and wake up on his own accord. He seems while sleeping to be in a mesmeric state or condition, knowing everything that is taking place around and about him. When the boy goes to bed at night, he no sooner lies down than he is to all appearances sound asleep, but in a few moments afterward he will arise from the bed and commence perambulating through the house. He does not confine his sleep-walking to the house, but has been found at the barn, 300 yards away, feeding the horses, although apparently in a sound sleep, out of which he cannot be awakened. He is watched, but allowed to awake at his own will. out of which he cannot be awakened. He is watched, but allowed to awake at his own will. The father says the boy is frequently found fast asleep while standing on his feet. During his sleep he can go to any part of the farm and find his playthings as he left them scattered around while awake. One day last week he sat down in a chair and immediately fell asleep. In this condition he went to a cupboard, got out a cigar which he had seen there when awake, got a match, came back to the chair and lit it sitting there asleep, smoking until he had consumed the entire cigar. It did not make him sick, although he had never before had a cigar in his mouth. The boy is in every other way healthy as any child,

NOT EASY TO MARRY THERE.

Germany Requires Proof of a Man's Birth and Baptism Before He Weds. PHILADELPHIA, March 14.-Howard Atwood Kelly, lately of Camden, but now living in Germany, is finding his road to the marriage altar full of stumbling-blocks. The wedding day was set, and when the marriage license was applied for Mr. Kelly learned to his surprise that he had actually to prove that he had been born. His parents settled that fact, and then Mr. Kelly had to show that he had been baptized. He wrote back to Camden and got a certificate of that fact from Rev. Joseph F. Garrison, formerly rector of St. Paul's P. E. Church, Camden. who mailed it to the young man.

man.

The baptismal certificate was yesterday received by County Clerk Burrough, in Camden, with the request for an official certificate from him. The German authorities had refused to recognize the ecclesiastical record and demanded a transcript from the official records. Clerk Burrough filed the baptismal certificate and sent to Germany a transcript of the record with his big seat and autograph.

MEXICO OUR FRIEND.

Discussing the Importance of Keeping on Friendly Terms With

ALL OUR SOUTHERN NEIGHBORS.

Mr. Gibson Sketches American Interests in Our Sister Republic and

WASHINGTON, March 14.-While the Senate was sitting with closed doors Mr. Gibson's resolution was taken up for the ap pointment of a select committee of seven Senators on the relations of the United States with Mexico and Central America, and Mr. Gibson spoke in support of it.

If there were any just grounds, he said, for the formation of a like committee on relations with Canada, the grounds were surely as strong and as imperative in regard to Mexico. Mexico was a republic, the nearest neighbor to the United States, and should be made the firm friend of this country. That was the primary object of his resolution. He desired the Mexican people to feel that the people of the United States desired their cordial and fraternal friendship. It was of the utmost importance that the people of Mexico should cease to cherish jealousy of the people of the United States or those resentments natural to them that grew out of the war by which the United States had come into possession of more than half of their territory. The friendship of Mexico was needed in order to uphold and maintain-across the Isthmus of Panama and in respect to Central America -the Monroe doctrine, and it was quite as important to the autonomy and freedom of Mexico that that doctrine should be main-

tained by the United States in the face of

the hostile aggression of Germany, France

or Great Britain.

AMERICAN INTERESTS IN MEXICO. But irrespective of that, it was important to cultivate friendly relations with the peo-ple of Mexico in order to develop America's took fire and fell on top of Oliver Baldwin's trade with that people. Mexico contained an area of 742,148 square miles; extended for several thousand miles along the southfamily and a note of explanation, and gone West to grow up with the country. population of nearly 10,500,000. The value of its agricultural products was about \$150,000,000 a year, was about \$150,000,000 a year, and it was directly connected by railroad with the United States. It seemed to him that it was the duty of the Senate to appoint a committee to ascertain what the hindrances were to the development of trade between the United States and Mexico. Why was it that France sent into Mexic double the value of goods that the United States sent there? If there were good reasons for developing trade relations with Canada, where there was a population of only 4,000,000, there was a still stronger reason for developing them with Mexico, where there was a population of over 10,000,000. Another reason for the appointment of the proposed committee was the existence of the "Free Zone," between Mexico and the United States, in which

> peace, disorders and tumult.
>
> Mr. Morrill, in a satirical tone, expresses the hope that if such committee were ap pointed the chair would not forget him, as he would like to make a trip to Mexico in a palace car with a buffet. But seriously, if the matter were to be considered by any committee, it should be either by the Committee on Commerce or the Committee on Finance. He hoped, therefore, that the resolution would be referred to one of these

> PLATT COMPLIMENTS HARRISON. Mr. Platt recognized fully the importance of cultivating friendly relations of a com-mercial character with Mexico and the South American States. He congratulated the Senate and the country that an administration was now being entered on which would establish relations of positive friendliness with all the countries in the western hemisphere. He favored, however, the reference of all such resolutions to an appro-priate committee, and thought it bad policy to depart from that rule in any case. moved the reference of the resolution to the

committee on commerce.

Mr. Regan advocated the adoption of the resolution. The "Free Zone," he said, was a territory about ten miles wide, running from the mouth of the Rio Grande to El Paso, a distance of 600 or 700 miles. It had operated to embarrass commerce in various ways, and it was necessary to have some steps taken to prevent smuggling into both countries. The forays, robberies and murders that were so common in that zone a few years ago no longer existed to the same extent, but commercial demoralization, growing of that "Free Zone," increased with the growth of the country. He fully agreed with the Senator from Louisiana as to the

great importance of cultivating the most friendly relations with Mexico. MEXICO NOT UNGRATEFUL. Mr. Hoar, referring to Mr. Gibson's re-mark as to Mexico's loss of territory as the result of the war with the United States, expressed the idea that the Mexican people knew that war had not been approved by a knew that war had not been approved by a very large portion of the American people; and also that they were not torgetful of the fact that the European invasion, which had resulted in the establishment of the empire under Maximilian, had been ended by a word from the State Department at Washington at the close of the American Civil War. He did not think that any modern nation had conferred on any other nation an obligation ferred on any other nation an obligation equal to that conferred by the United States

Mexico when the empire under Maximilian disappeared.

Mr. Call favored the adoption of the resolution and opposed the motion of reference. He also advocated, indirectly, his own resolution, proposing a like select committee for Cuba and the West India Islands. The question of the annexation or acquisition of the island of Cuba was, he said, present to the mind of a large portion of the people of the United States. He had recently had various letters on that subject, showing that public attention was being directed to it. It it was important to ascertain the commercial relations present or prospective, between Canada and the United States, it certainly was equally important to ascertain them in regard to Cuba and Mexico.

Mr. Hale objected to the further consideration of the subject, the Senate being in executive session; and the Senate at 12:50 took a recess till 3 P. M. and at 3:20 adjourned
